

1-3 Holdsworth Avenue St Leonards NSW

Nestled amid a canopy of trees on a serene residential street, Elation rises 13 storeys, commanding sweeping panoramas over the surrounding area, with significant city vistas from its upper levels. Carefully crafted one, two and three-bedroom apartments showcase a design that fosters a strong interaction with the outdoors. A select number of two-storey mezzanine-style townhouses at street level bring an intimate human scale to the north-facing building.

The scale, materiality and detailing of Elation's low-level podium = reflects the richness of its historical context, with its fine brickwork, robust metalwork and articulated façade. In contrast, the tower form has been designed in response to Elation's role as a contemporary representation of the transforming St Leonards South precinct, with a more simple material expression. A landscaped green corridor
